PRODUCT SPECIFICATION SHEET

CVD-2000P Cellular Voice Dialer

Perfect for Residential, Commercial or Industrial applications, our Cellular Voice Dialer is designed for direct, immediate notification of emergency situations. Because it doesn't require a land line, you can install it wherever it is needed. It includes our tried and true AD-2000 auto-dialer, so you can rest assured that if something happens, you'll know, without a doubt.

Applications:

- Secure remote sites where power is available but no phone line, e.g. construction trailers, boats, vacation homes/cabins.
- Signal change in operating status of remote equipment, such as in pumping stations or lights out manufacturing.
- Backup to alarm system if phone lines are cut.
- Includes Motorola V500 Series Cell Phone
- Easy to use, no contract necessary, prepaid cellular service available for this unit. Simply add minutes to your account as needed over the phone or on Cingular website
