## CVD-2010

Full Featured Security System with 4 Independent Voice Channels, Power Failure Monitoring, and Universal Cellular Dialer Backup with Cell Phone/SIM Card

CVD-2010 is a completely self-contained, weatherproof, four-channel monitoring system and cellular automatic voice dialer. Trigger event are announced via recorded voice message delivered by the cell phone when the call is answered. Representing an exciting new level of achievement, the CVD-2010 combines technologically advanced features, ease of programming and reliable operation in a compact, unobtrusive dialer completely compatible with any security alarm system.

The CVD-2010 features a Power Monitoring System (PMS) that constantly operates in the background. In the event of a blackout, or when battery voltage falls below a safe level, or when power is restored, the PMS automatically dials out and notifies by means of pre-recorded voice messages which of the three conditions have been detected: "AC POWER OFF", "BATTERY LOW", or "AC POWER RESTORED".
